

Dr. Jennifer Winter is a Professor in the Department of Economics and the School of Public Policy, University of Calgary, and the Departmental Science Advisor at Environment and Climate Change Canada. Her research evaluates climate policies, and examines the consequences and trade-offs of government regulation and policy on energy development. She has testified to the Senate of Canada and House of Commons on emissions pricing policies, and has advised governments in Canada in numerous capacities. Dr. Winter is actively engaged in increasing public understanding of energy and environmental policy issues, and she serves on several boards and advisory committees.
